

## Enterprise Risk Manager

### Job Overview

Supporting the Head of Strategy Execution & Risk in delivering strategic objectives, this role is a newly created position to enhance the company's approach to enterprise risk management and help improve systems and processes to ensure the Executive Leadership Team is fully appraised of relevant risks and opportunities. The role will have broad involvement in all risk related workstreams. Based in the Company's head office in London, the role will work closely with the Head of Strategy Execution & Risk and will also support other executives when required.
